Professional Summary

Computer Science undergraduate with a strong foundation in **Data Structures & Algorithms (DSA)**, **Object-Oriented Programming (OOP)**, **DBMS**, and **Operating Systems**. Proficient in **Java**, **Python**, **JavaScript**, **SQL**, **React.js**, **Node.js**, **FastAPI**, and **REST APIs**, with hands-on experience building **scalable applications** and solving **220+ DSA problems**. Strong **problem-solving** and **analytical skills**, with internship and project experience in software development and cybersecurity. Passionate about building **efficient, reliable, and secure software solutions**.

Education

Vellore Institute of Technology

Bachelor of Technology in Computer Science and Engineering (Cyber Security)

Aug 2023 – May 2027

CGPA: 8.88/10.00

Technical Skills

Programming Languages: Java, Python, JavaScript, SQL, HTML5, CSS3

Core Computer Science: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, System Design

Frameworks & Tools: FastAPI, React.js, Node.js, Express.js, REST APIs, Git

Security & Tools: Wireshark, Nmap, Burp Suite, Kali Linux, OWASP Top 10

Certifications

- **Microsoft Certified: Security Operations Analyst Associate (SC-200)**
- **AWS Certified Cloud Practitioner**
- Programming in Java (Vityarthi) | Bits and Bytes of Computer Networking (Coursera) | Deloitte Cyber Job Simulation.

Projects

Personal Finance Tracker

JavaScript, Node.js, REST APIs

Jul 2026

[GitHub](#)

- Built a responsive **personal finance tracking** application with secure **CRUD-based** transaction management.
- Handled **1000+ financial records** using optimized **REST APIs** for fast data operations and retrieval.
- Designed an analytics dashboard to track **balance, income, expenses, and spending patterns** in real time.

AI-Assisted Network Intrusion Detection System

Python, Flask, Scapy

Apr 2026

[GitHub](#)

- Developed an **AI-assisted intrusion detection system** to inspect **live network traffic** and flag suspicious activity in real time.
- Processed **50,000+ packets** and identified **3+ attack behaviors**, including **Port Scans, SYN Floods, and ARP Spoofing**, with **94% detection accuracy**.
- Built a centralized **Flask dashboard** to show active threats using **severity-based alert levels**.

Phishing Website and Email Detection

Python, HTML/CSS

Mar 2025

[GitHub](#)

- Built a **phishing detection web application** for analyzing suspicious emails and malicious websites using **Regex-based** and rule-driven checks.
- Tested **5,000+ email and URL samples** and achieved around **90% detection accuracy** through a transparent scoring engine.
- Displayed **risk scores, verdicts, and explainable reports** through a responsive interface for both email and URL analysis.

Work Experience

SOC L1 Intern

Techniki IT Solutions

May 2026 – Jul 2026

Firozabad, India

- Monitored and categorized **30+ security alerts weekly** in **SIEM** tools, using structured analysis to identify **phishing, malware, and network-based threats**.
- Performed **vulnerability assessments** and maintained remediation records to improve system resilience and reduce recurring security issues.
- Prepared **incident response reports** with clear technical findings and actionable recommendations for internal teams.

Cyber Security Intern

The Red Users

Feb 2025 – Mar 2025

Remote

- Conducted **web application security testing** based on the **OWASP Top 10**, applying systematic test cases to evaluate application weaknesses.
- Detected and documented vulnerabilities such as **SQL Injection (SQLi)**, **XSS**, and **CSRF**, contributing to stronger application security.
- Used **Wireshark** for packet analysis to identify and eliminate plaintext credential exposure in network traffic.

Achievements

- Solved **220+ DSA problems** across LeetCode, with a **50-day streak badge**.
- Selected in the **Top 2.5% (1,000/40,000+)** for **AlgoUniversity Graphs Camp**; qualified the Graphs Completion Test.
- **Finalist**, VIT–Johns Hopkins University Hackathon 2026.
