## EDUCATION

### Vellore Institute of Technology

Bachelor of Technology in Computer Science and Engineering (Cyber Security)

Aug 2023 – May 2027

CGPA: 8.88/10.00

## TECHNICAL SKILLS

**Languages:** Java, Python, Bash, PowerShell, SQL, HTML5, CSS3

**Frameworks & Libraries:** React.js, Flask, FastAPI, SQLAlchemy

**Tools & Platforms:** Git, Wireshark, Nmap, Burp Suite, Kali Linux

**Core CS & Security:** Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks, System Design, Network Security, Cloud Security, Identity & Access Management (IAM), Cybersecurity, Threat Detection, OWASP Top 10, SOC Monitoring, Incident Response, Vulnerability Assessment, Secure Coding Practices

## CERTIFICATIONS

- Microsoft Certified: Security Operations Analyst Associate (SC-200)
- AWS Certified Cloud Practitioner

## WORK EXPERIENCE

### SOC L1 Intern

May 2026 – Jul 2026

Techniki IT Solutions

Firozabad, India

- Monitored and categorized **security alerts** weekly in **SIEM** tools, using structured analysis to identify **phishing, malware, and network-based threats**.
- Performed **vulnerability assessments** across **network and endpoint security** controls, maintaining remediation and **compliance documentation** to strengthen system resilience.
- Used **general-purpose AI tools (ChatGPT, Claude)** to assist with log analysis, summarizing findings, and drafting incident documentation, validating outputs before use.
- Prepared **incident response reports** with clear technical findings and actionable recommendations for internal teams.

### Cyber Security Intern

Feb 2025 – Mar 2025

The Red Users

Remote

- Conducted **web application security testing** based on the **OWASP Top 10**, applying **secure coding** review practices to evaluate application weaknesses.
- Detected and documented vulnerabilities such as **SQL Injection (SQLi)**, **XSS**, and **CSRF**, contributing to stronger application security.
- Used **Wireshark** for packet analysis to identify and eliminate plaintext credential exposure in network traffic.

## PROJECTS

### Watch Guard —SOC Alert Dashboard

Apr 2026 – Aug 2026

Python, Flask, React, SQLite

[GitHub](#) | [Live](#)

- Built a **SOC alert dashboard** with a custom rule engine detecting **port scans, SYN floods, and brute-force** logins in real time for **network security** monitoring.
- Designed a **0–100 threat-scoring** system with a severity-ranked alert queue and a demo-attack mode for testing.
- Tested on **50,000+** network packets, backed by **SQLite** and a **Pytest** test suite.

### Penny-Count — Personal Finance Tracker

Jul 2026

React, Python, Flask, SQLAlchemy, JWT, SQLite

[GitHub](#) | [Live](#)

- Built a finance tracker with **JWT-authenticated** CRUD for transactions.
- Designed a **Safe-to-Spend engine** computing daily spendable balance from bills, commitments, and a safety buffer.
- Applied **secure coding practices** — **SQLAlchemy** models with parameterized queries and **Werkzeug** password hashing — plus one-click demo-seeding.

## ACHIEVEMENTS

- Solved **300+ DSA problems** on platforms like LeetCode, earning a **50-day streak** badge (Rating: 1480).
- Selected in the **Top 2.5% (1,000/40,000+)** for **AlgoUniversity Graphs Camp**; qualified the Graphs Completion Test.

## EXTRACURRICULAR ACTIVITIES

Edu4U Club — Finance Team Member

AdVitya 2025, 2026 — Discipline Team Member

## CODING PROFILES
